

ZECANTE DL500 DE LABELLER

Removes self-adhesive and wet gum labels from straight sided glass bottles.

- One handed control
- Fits into your production line
- Requires single phase power, 6 bar air supply 85psi, and water
- De-labels approximately 6 bottles per minute
- Labels collected at back of machine
- Water can be collected for recycling

Your answer to recycling and rebranding

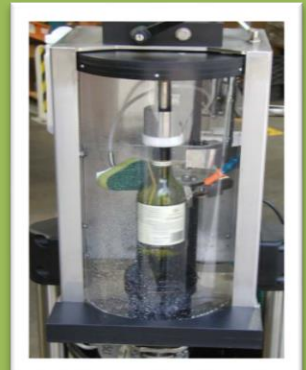

Step 1

Place the bottle in the Zecante DL-500

Step 2

Operate the lever to activate label removal

Step 3

Release the lever to remove bottle.

Step 4

Clean bottle ready for recycling or re-branding.
