## FOOD SAFETY PROGRAM

ASSISTS AUDIT COMPLIANCE

## REDUCING RISK WITH CRC

At CRC we understand the food industry. Whether you're growing, producing, processing or packaging, it all requires the most stringent conformity of compliance.

We also understand that a range of maintenance products is no longer enough, that is why we have not only developed a Food Grade range of products that conform with MPI & NSF standards manufactured to the same high standard that has made CRC a worldwide leader in MRO maintenance, but we have also developed our exclusive CRC GREENLIGHT™ Food Safety Program, developed to reduce the risk of incident when conducting maintenance during production.

CRC is a certified supplier of MPI endorsed food safe products.

MPI national local governing body which have strict guidelines in place for identifying and managing risk and, when central to an active food safety programme, can provide vendors, the public and government bodies with a high degree of comfort that food safety is being taken seriously and well managed.

### MPI Approved

For use at Farm Dairies and in Dairy processing

### MPI Approved

All Animal Product Except Dairy

**The CRC GREENLIGHT™ Food Safety Program can simplify or improve on your current QA auditing programs through the introduction of:**

- The CRC range of MPI approved maintenance products
- On-site central point for audit documentation - SDS, TDS, MPI and Allergen certificates
- A visual food safety identification program through wall and cupboard signage, and posters
- Site survey and assessment
- On-going updates to ensure you remain at the highest level of regulatory compliance
- Inventory assessment & management with an aim to reduce costs
